Defects found and action taken

Date · vehicle / trailer · defect · dangerous? (Y/N) · reported to · action / repaired by

Found a defect? Report it in writing straight away. Do not drive a vehicle with a dangerous defect until it has been repaired.

Based on DVSA guidance: gov.uk/guidance/carry-out-daily-heavy-goods-vehicle-hgv-walkaround-checks. Always follow your operator's procedures and the vehicle handbook, which take priority over this sheet. Keep completed sheets: DVSA can ask to see them at a roadside check.
